About the Internships

During our immersive six-week summer internships, high-school students get the chance to work on exciting **real-world projects** with host company teams. Students gain hands-on experience with the latest technologies, build their work portfolios and explore their potential career interests. Company mentors grow their coaching skills, get unique insight into their projects, real hands-on intern contribution to their work, and possibly a future team member.

- 12 student placements available
- Paid (\$16/hr)
- Full-time (35hr/week)
- In-person at a NL ocean sector company
- Anticipated placements in St. John's, Mount Pearl, Paradise, Torbay, Corner Brook, St. Alban's, Harbour Breton, and more...
- 6-weeks including virtual onboarding, professional development sessions, and wrap-up

Eligibility Requirements

- NL high-school student (Level 1, 2, or 3) as of June 01, 2023
- 15 years of age or older as of June 01, 2023
- Interest in the ocean sector (aquaculture, fisheries, environmental monitoring, marine transportation, marine biology, energy, ocean technology, and more....)
- Interest in building new skills for employability
- Interest in building a network of like minded peers and ocean professionals
- Commitment to working safely and the principles of diversity, equity, and inclusion

About Us

The Ocean Careers Immersion Program (OCIP) is a cross sectoral collaborative youth outreach initiative of OceansAdvance, econext, the Council of Marine Professional Associates (COMPASS), and the Newfoundland Aquaculture Industry Association (NAIA). OCIP receives funding support from the Newfoundland and Labrador Department of Immigration, Population Growth, and Skills as part of the Canada - Newfoundland and Labrador Labour Market Development Agreement, with additional support from Oceans Learning Partnership.
