

Fish Health Technician

We are recruiting for a **Fish Health Technician** to join the Fish Health team at Mowi Canada East Inc. This position will be based out of our operations on the South Coast of NL with travel throughout the Maritimes required. If you are passionate about animal care and looking for an exciting opportunity to grow your career, then this is the role for you!

ABOUT THE JOB

At Mowi, we work with the ocean to produce nutritious, delicious and supreme-quality seafood. Working for Mowi means joining a team of people who pride themselves on driving change and are committed to making a difference. Reporting to the Fish Health Manager, this position is a crucial part of our operations process and ensures the best welfare of our salmon in a sustainable and efficient way. In this role you will provide a high degree of competency in maintaining established standards of safety, quality and accuracy.

The main job duties of the Fish Health Technician include Marine Sea Site visits to complete regulatory sampling, biosecurity auditing, Assisting/overseeing lice counts and treatments. There is also a requirement to maintain accurate records, complete visit reports and ensure accurate data entry across several platforms. Visits to freshwater facilities will also be required to collect health surveillance sampling, vaccination and brood stock sampling. As part of the role there is a requirement to promote a safe and positive work environment and maintain the company's high standards of fish health and welfare. As part of the fish health team, you will be supported but need to be resourceful with a self-reliant approach and do well under your own initiative.

WHAT WE ARE LOOKING FOR

Our ideal candidate would be safe and willing to work independently in a team-oriented environment and have a passion for the industry. They would have:

- Relevant post-secondary education and/or experience in Aquaculture and/or Fish Health
- Data collection and entry accuracy
- Record and document management proficiency
- Respect for the need for safe working practices
- Well-developed English verbal and written communication
- A positive attitude and willingness to learn
- Physical ability to complete repetitive tasks
- Ability to work safely and effectively in challenging outdoor weather
- Flexible approach to working to meet the demands of the job
- Willingness to participate in Mowi's development and training opportunities
- Willing to travel to other maritime locations outside of Newfoundland

WHAT WE OFFER

Along with being part of an experienced team in a constantly growing salmon industry, with a global industry leader, we offer:

- Competitive wages and permanent, full-time work
- Matching company paid Pension Plan contributions (DCPP)
- Comprehensive Flex Benefits Plan including Life & Disability Insurance
- Employee Family Assistance Program
- Wellness Programs including an annual wellness reimbursement
- Potential for Annual Bonus and Employee Stock Options Program
- Company provided Gear and PPE
- Opportunity to grow with a large global company

If this role sounds like the right fit for you, we would love to hear from you!
